POWER SOCCER CLINIC

Sunday November 23rd, 2008

12noon-5pm

American River College Gym

4700 College Oak Drive, Sacramento, CA 95841

Power soccer is an indoor team sport similar to soccer played by people who use power wheelchairs

Coach and competitive players coming from B.O.R.P.'s own "Bay Earthquakes"

This is a sport for power wheelchair users!

The Basics of the Sport

Power soccer is a simple, hard-driving, straightforward game. It's played on a regulation basketball court with four players on each side. The object is to outscore your opponents by driving an oversized soccer ball across their goal line. The rules are similar to soccer and equipment needs are minimal. Foot guards are temporarily attached to chairs to help in controlling the ball and to prevent damage to wheelchairs. Guards will be available at the clinic for your use.

Join us and try something new! Call or email for more information and for directions.
